PROFESSIONAL SUMMARY

Mid-Level Front-End Developer with 2+ years of hands-on experience building scalable, high-performance web applications using React.js, Next.js, and TypeScript.

Adept at translating complex UI/UX designs into modular, maintainable codebases with a focus on performance, state management, and SEO.

Proven ability to deliver production-quality solutions in Agile environments, collaborating closely with cross-functional teams to enhance usability and drive business impact.

WORK EXPERIENCE

Front-end dev | ARCON CORPORATION   Jul 2024- Until Present

- Developed and maintained responsive, scalable, and high-performance web interfaces using React.js, Next.js, and TypeScript.
- Built reusable UI component systems, reducing development time by 25% across multiple projects.
- Integrated RESTful APIs and implemented robust state management using custom hooks and React Query.
- Improved Core Web Vitals and SEO performance through code splitting, image optimization, and lazy loading.
- Collaborated with design and backend teams in Agile sprints to ensure timely delivery of features and enhancements.
- Participated in **code reviews, linting automation**, and version control to maintain clean, maintainable architecture.

Junior Front-End Developer | Modern Trade for Engineering Supplies   May 2022 – Dec 2023

- Designed and implemented responsive landing pages, dashboards, and admin panels using React.js, HTML5, and Tailwind CSS.

- Enhanced website load speed by 35% through performance tuning and component optimization.

- Collaborated closely with backend engineers to integrate RESTful APIs and improve UI responsiveness.

- Maintained high standards for accessibility (A11y) and browser compatibility across all devices.

Insurance Advisor | Chubb Life Insurance   Apr 2024 – Jul 2024

- Conducted financial assessments and provided customized insurance and investment solutions.
- Strengthened client relationships through consultative communication and personalized support.

PROJECTS

Medyour – Healthcare Services Platform   **medyour.com**

Built a multilingual (Arabic/English) healthcare website using Next.js and Tailwind CSS with full A11y and SEO optimization. Delivered pixel-perfect, responsive layouts and clean architecture.

Axiom AI Solutions – Engineering & Technology Firm   **axiomais.com**

Developed a high-performance static site (SSG) with Next.js, improving speed, security, and scalability. Delivered production-grade UI and reusable components to showcase enterprise tech solutions.

Labs For Home – Educational Platform   **[Hostinger Site](#)**

Created an interactive learning platform using Next.js + TypeScript, featuring custom components, video integration, and optimized routing for smooth UX.

Modern Trade for Engineering (MTE) – Corporate Website   **moderntrade.netlify.app**

Engineered a bilingual (Arabic/English) corporate website using HTML5, CSS3, Vanilla JavaScript, and Tailwind CSS. Focused on SEO optimization, mobile-first design, and responsive UX to enhance brand visibility and client engagement.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **State Management:** React Hooks, Context API, React Query
- **Tools & Platforms:** Git, GitHub, VS Code, Netlify, Vercel
- **Performance & Optimization:** Code Splitting, Lazy Loading, SEO, Lighthouse Auditing, Accessibility (
- **Soft Skills:** Problem Solving, Ownership, Team Collaboration, Attention to Detail

EDUCATION

Bachelor of Commerce – Accounting
Alexandria University | Graduated 2023 | Grade: Good

KEY ACHIEVEMENTS & STRENGTHS

- **Delivered 7+ production-level React/Next.js features across enterprise projects.**

- **Improved frontend performance and SEO scores through Next.js SSG and Lighthouse optimization.**

- Strong expertise in **component reusability** and **scalable architecture** for modern SPAs.

- **Proven ability to work independently and within Agile teams under tight deadlines.**

- Committed to continuous learning and advancing front-end performance engineering.
